Subject	SAFETY STANDARDS SCHEME – POSITIVE SAFETY RECOGNITION

An Airside Information Notice (AIN) will be issued to notify airfield users of pertinent operational or administrative information, such as a general or routine reminder of airfield procedures/instructions, the promotion of safety campaigns and changes to airfield infrastructure, signs or markings. It is the responsibility of all employers to ensure that relevant AINs are brought to the attention of their staff.

1. OBJECTIVE

The Airside Safety Standards Scheme aims to monitor and improve performance in relation to airside safety and it is important that positive safety behaviours or actions are recognised, in addition to unsafe or hazardous occurrences. To support this, Airside Operations have launched an airside Positive Safety Recognition initiative. This is to recognise and possibly reward those individuals who have demonstrated the highest levels of safety and performance.

2. SCOPE

This AIN applies to all Bristol Airport staff and business partners operating airside.
