Bickerdike Allen Partners LLP is a limited liability partnership registered in England and Wales. Registered number: OC402418.  
Registered office: 6th Floor, 2 London Wall Place, London, EC2Y 5AU

Partners (members)  
David Charles, Philippa Gavey, Giles Greenhalgh, David Trew

**Bickerdike Allen Partners LLP** is an integrated practice of Architects, Acousticians, and Construction Technologists, celebrating over 60 years of continuous practice.

**Architects:** Design and project management services which cover all stages of design, from feasibility and planning through to construction on site and completion.

**Acoustic Consultants:** Expertise in planning and noise, the control of noise and vibration and the sound insulation and acoustic treatment of buildings.

**Construction Technology Consultants:** Expertise in building cladding, technical appraisals and defect investigation and provision of construction expert witness services.

*This report and all matters referred to herein remain confidential to the Client unless specifically authorised otherwise, when reproduction and/or publication is verbatim and without abridgement. This report may not be reproduced in whole or in part or relied upon in any way by any third party for any purpose whatsoever without the express written authorisation of Bickerdike Allen Partners LLP. If any third party whatsoever comes into possession of this report and/or any underlying data or drawings then they rely on it entirely at their own risk and Bickerdike Allen Partners LLP accepts no duty or responsibility in negligence or otherwise to any such third party.*

*Bickerdike Allen Partners LLP hereby grant permission for the use of this report by the client body and its agents in the realisation of the subject development, including submission of the report to the design team, contractor and sub-contractors, relevant building control authority, relevant local planning authority and for publication on its website.*

## **1.0 INTRODUCTION**

Bickerdike Allen Partners LLP (BAP) have been instructed by Bristol Airport Ltd (BAL) to produce 2025 actual summer noise contours and 2026 forecast summer noise contours. These contours and the methodology used to produce them are detailed in report A11681\_01\_RP001\_1.0.

This report presents the number of dwellings within each contour detailed in report A11681\_01\_RP001\_1.0 and provides a complete schedule of dwellings within the 57, 60 and 63 dB  $L_{Aeq,16h}$  (summer day) and 55 dB  $L_{Aeq,8h}$  (summer night) contours, which are applicable to the Bristol Airport Noise Mitigation Scheme (NMS).

This report has been prepared specifically in response to instructions received from BAL and is not intended for any other purpose.

## **2.0 METHODOLOGY**

All dwelling counts and schedules described in this report have been determined using the Ordnance Survey (OS) AddressBase Plus product. This is a database of current properties and addresses sourced from local authorities, OS, Royal Mail and the Valuation Office Agency. All entries in the database have an associated geographic coordinate which has been assessed using the same methodology as the noise contours described in report A11681\_01\_RP001\_1.0.

## **3.0 RESULTS**

The dwelling counts for the summer day contours are provided in Table 1. The dwelling counts for the summer night contours are provided in Table 2. All counts are cumulative.

Appendix 1 provides the schedules of dwellings within the 2025 actual summer noise contours (daytime  $\geq 57$  dB  $L_{Aeq,16h}$  and night-time  $\geq 55$  dB  $L_{Aeq,8h}$ ). Appendix 2 provides the schedules of dwellings within the corresponding 2026 forecast summer noise contours.

Contour Level (dB L <sub>Aeq,16h</sub> )	Number of Dwellings	
	2025 Actual	2026 Forecast
≥51	3,883	3,803
≥54	1,161	1,135
≥57	533	543
≥60	137	140
≥63	28	28

**Table 1: Summer day noise contour dwelling counts**

Contour Level (dB L <sub>Aeq,8h</sub> )	Number of Dwellings	
	2025 Actual	2026 Forecast
≥40	31,452	25,109
≥55	377	329

**Table 2: Summer night noise contour dwelling counts**

#### 4.0 SUMMARY

BAP have produced counts and schedules of dwellings within the contours applicable to the Bristol Airport NIGS and NMS using individual dwelling locations sourced from OS data.

The number of dwellings within the 57 dB L<sub>Aeq,16h</sub> contour is forecast to increase from 533 in 2025 to 543 in 2026, while the number of dwellings within the 55 dB L<sub>Aeq,8h</sub> contour is forecast to decrease from 377 to 329.

The slight increase in the number of dwellings in the 57 dB L<sub>Aeq,16h</sub> contour is despite a forecast reduction in overall area and arises as there is also a change in contour shape. This is largely due to Runway 09 being used 2% less in 2025 than the long-term average, which is used in the forecast for 2026. This results in a few additional dwellings around Felton and Winford in the forecast contour.

The area of the 55 dB L<sub>Aeq,8h</sub> contour is forecast to decrease overall, this is due to less nighttime movements being forecast for 2026 with respect to 2025. This results in fewer dwellings in the forecast.
